

**Wake Forest NCORP Research Base
Bi-Weekly Broadcast
July 16, 2019**

- **The Wake Forest NCORP 6th Annual meeting will be held November 14 – 16** in Greenville, SC at the Hyatt Regency. You may begin making your hotel reservations by clicking on the following link [https://www.hyatt.com/en-US/group-booking/GSPRG/G-NCOR \[hyatt.com\]](https://www.hyatt.com/en-US/group-booking/GSPRG/G-NCOR[h Wyatt.com]) a block of rooms have been reserved for this meeting. **Tip:** There is a Clemson/Wake football game this weekend so please be advised to grab your rooms early as all hotels in the area will fill fast. Registration link coming soon.
- **WF 01213 Relax - *Reducing Lung Cancer-Related Anxiety (RELAX)* is CLOSED TO ACCRUAL AS OF 5PM ET Thursday, July 11, 2019.**
 - The Wake Forest Baptist Comprehensive Cancer Center DSMB met recently and reviewed WF 01213 (Relax) study, due to the overall longevity of the trial and the slow accrual, the DSMB recommended the study be closed to enrollment. The WF NCORP Executive Steering Committee unanimously voted to close this study to enrollment as well.
 - We have uploaded the minutes of the WF DSMB to the Wake NCORP website under the Relax documents for you to submit to your local IRB.
 - Please make sure you continue to follow your active patients.
 - Please make sure to submit your data in a timely manner.
 - If you have already consented a patient, you may continue with study interventions but please contact the WF NCORP at NCORP@wakehealth.edu to let us know so that we make sure your enrollment was captured.
 - You will need to return all study devices and study-related supplies that are not currently in use to WF NCORP.
 - Please distribute this information to the appropriate personnel at participating affiliate/NCORP component institutions.
- **WF-1801 Ramipril MRI/CT Scan Unscheduled Event**
 - The **Data Collection Instruments** screen in REDCap has been updated with an **Unscheduled MRI/CT Scan** event to collect data for any unscheduled MRI/CT scans. The **Unscheduled MRI/CT Scan** event should be used if a patient's MRI is not completed close to a scheduled protocol visit date. If there are multiple events of unscheduled MRI/CT scans you will select "+" to add those events.

- **WF 1802 PCW – Influence of Primary Treatment for Prostate Cancer on Work Experience (PCW)** study was activated on June 4, 2019. This study will compare changes in work ability reported by African American and white prostate cancer survivors.
 - Our **first site call** will be held on July 16, 2019 from 1:30-2:00; future site calls will be held bi-monthly. Site call meeting invitations will be distributed this week to sites who expressed interest in participating in this study.

If you have any questions or would like more information, email NCORP@wakehealth.edu.

- **Accruals as of July 15, 2019**
