

**Wake Forest NCORP Research Base  
Bi-Weekly Broadcast  
July 30, 2019**

---

- **The Wake Forest NCORP 6<sup>th</sup> Annual meeting will be held November 14 – 16** in Greenville, SC at the Hyatt Regency. You may begin making your hotel reservations by clicking on the following link [https://www.hyatt.com/en-US/group-booking/GSPRG/G-NCOR\\_hyatt.com](https://www.hyatt.com/en-US/group-booking/GSPRG/G-NCOR_hyatt.com) a block of rooms have been reserved for this meeting. **Tip:** There is a Clemson/Wake football game this weekend so please be advised to grab your rooms early as all hotels in the area will fill fast. Registration link coming soon.
- **WF 1806 M&M – Myopenia and Mechanisms of Chemotherapy Toxicity in Older Adults with Colorectal Cancer**
  - Thank you for joining us on the introductory WebEx on July 29. Great participation! If you were not able to join us, the WebEx will be posted to the Wake Forest NCORP website for your review shortly. You should be able to access this area by clicking on Dashboard then Videos and pick the link that will be posted for this study.
  - The protocol is being reviewed by DCP and then will need CIRB approval, and final DCP approval.
  - We are anticipating a training WebEx by the end of August. We will keep you posted on the dates.
  - To clarify, the study will be using Version 5.0 for CTCAE.
  - Unlicensed staff members may perform assessments so long as they have an active GCP and have gone through the training for this study (Coming Soon).
  - If you are interested in participating in this study, please email [NCORP@wakehealth.edu](mailto:NCORP@wakehealth.edu).
- **WF 1804 AH-HA – Assessing Effectiveness and Implementation of an HER Tool to Assess Heart Health Among Survivors**
  - This study is activated but is a limited access study, so please express your site's interest by emailing the study project manager, Eleanor Davidson ([ecdavids@wakehealth.edu](mailto:ecdavids@wakehealth.edu)) to complete the preliminary eligibility screener or to receive additional information.
  - The protocol, study documents, and informational webinars are located on the Wake Forest NCORP website under the protocol documents folder.
- **WF 1803 Caregivers – Supportive Care Service Availability for Cancer Caregivers in Community Oncology Programs**
  - CCDR Leads and Site Administrators:
    - We appreciate your participation in our study, Supportive Care Service Availability for Cancer Caregivers in Community Oncology Practices. It has come to our attention that some sites are concerned about response rates for their surveys. While Wake Forest sends reminders to all randomly selected providers, it may be beneficial for the CCDR lead to send an additional reminder to encourage completion. If you are willing to do this, we would ask that you review the monthly

response rate updates we are sending you and send a reminder email to the set of providers with lower response rates (e.g., nurses, PA/NPs or physicians) from your list of providers. We value your engagement in this important study.

- If your site has not yet participated in this study, you may begin the rostering process by following this link:

[WF1803CD - Practice Group Rostering and Component/Subcomponent Eligibility & Registration](#)

- **WF 1802 PCW – Influence of Primary Treatment for Prostate Cancer on Work Experience**
  - This study was activated on June 4, 2019 and compares changes in work ability reported by African American and white prostate cancer survivors.
  - Our first site call was on July 16, 2019. The recording of this call and the slide presentation can be found on the Wake Forest NCORP website. You should be able to access this area by clicking on Dashboard then Videos and pick the link that is posted for this study.
  - The next site call will be scheduled for September 17, 2019 at 1:30PM EST.
  - The FAQ document has been updated and posted on the Wake Forest NCORP website.
  
- **WF 1801 Ramipril – A Single Arm, Pilot Study of Ramipril for Preventing Radiation-Induced Cognitive Decline in Glioblastoma (GBM) Patients Receiving Brain Radiotherapy**
  - A site call was held July 24, 2019. The recording of this call and the slide presentation can be found on the Wake Forest NCORP website. You should be able to access this area by clicking on Dashboard then Videos and pick the link that is posted for this study.
  - The next site call is scheduled for September 25, 2019 at 3:00PM EST.
  
- **WF 97116 Remember – A Phase 3 Randomized Placebo Controlled Clinical Trial of Donepezil in Chemotherapy Exposed Breast Cancer Survivors with Cognitive Impairment**
  - Please note that when performing your ECGs for this study to use your default institution’s formula for the calculation of the ECG’s QTc.
  - Amendment 4 is close to being fully approved, this amendment clarifies the re-consenting process within the protocol. We will send out a Special Broadcast once we have final approval.
  
- **WF 30917CD Telehealth – A Stepped-Care Telehealth Approach to Treat Distress in Rural Cancer Survivors**
  - We would like to congratulate the following sites who have randomized the last 6 participants!
    - SC024, SC058, WI209, IL185 & WI153
  
- **Accruals as of July 29, 2019**
