ANNOUNCEMENT – Funding Opportunity for Pilot Projects

*****Due date for application submission is September 1, 2021*****

The Wake Forest NCI Community Oncology Research Program (NCORP) Research Base seeks applications for meritorious pilot projects that will generate preliminary data in support of future NCORP cancer control and cancer care delivery research (CCDR) protocols. Areas of interest include symptom intervention and surveillance, health outcomes research, new approaches to cancer care delivery, and implementation of evidence-based practice in cancer care. Wake Forest NCORP priorities include cancer- and treatment-related cardiotoxicity, neurocognitive toxicity, cancer survivorship, implementation science, and cancer caregiving. Investigators may request up to \$75,000 for a one year pilot project. This represents a “total” award, inclusive of institutional indirect costs. Investigators submitting applications are encouraged to negotiate the lowest possible indirect rate with their home institution and/or explore any opportunities for cost sharing (e.g. splitting indirect costs with the local cancer center or cancer service line funds)

Additional information can be found on the Wake NCORP website: <http://wakencorp.phs.wakehealth.edu/>, click on "Open Protocols" then click the "Pilot Awards Information" Tab, or by contacting NCORP@wakehealth.edu for the full RFA information.

New Workshop Opportunity!

Deadline for applications is September 3, 2021

Date: 10/06/2021 (In conjunction with the WF NCORP Research Base Annual Meeting)

Location: The Renaissance Hotel, Asheville, NC

Time: 7:30 am - 11:30 am

Overview: The goal of this workshop include: (1) to offer consultation to NCORP community sites to support implementation of evidence-based practices into oncology settings, (2) to advance local quality improvement projects into generalizable CCDR research, and (3) to strengthen concept or grant proposals for implementation science research within NCORP.

Each participant (or team) will submit a brief concept and work with implementation scientists and biostatisticians to achieve their concept goal(s). A workshop will be held in-person at the NCORP RB annual meeting (October 6th, 7:30am-11am), which will include breakfast, welcome/introduction to the workshop, participants' 5-minute informal presentation of their concept or idea to the group (aka "The Pitch"), and feedback from an expert panel and peers. A virtual workshop will also be made available for those not attending the meeting at a later date TBD.

Funding: A travel stipend will be offered for one person from each selected team to attend the workshop at the WF NCORP RB meeting. Funding is contingent on submission of the concept and selection by the committee.

NCORP@wakehealth.edu

Holiday Closures - Labor Day

Monday, September 6, 2021

- Wake Forest NCORP Research Base
- McKesson
- Wake Forest Biospecimens
- UAB Lab (for WF-1806-M&M Specimens)
- MD Anderson (for WF-97115-ACUPUNCTURE Specimens)

Normal operations will resume on Tuesday, September 7, 2021. Please contact NCORP@wakehealth.edu if you have questions

Please email 7NCORP@wakehealth.edu when shipping biospecimen samples. Include the FEDEX tracking number in your email so that misplaced samples can be tracked before they spoil

Study Updates

WF-1901 - IMPACTS - Internet Delivered Management of Pain Among Cancer Treatment Survivors

We have received questions regarding accrual “credit” for the IMPACTS study. A letter titled "WF-1901 - IMPACTS Funding and Accrual Payment" from Dr. Glenn Lesser has been posted to the Wake NCORP website: <https://wakencorp.phs.wakehealth.edu/>. Go to: DASHBOARD/Protocol Documents/1901-IMPACTS.

If your site has not been activated for this exciting study, we would love to bring you onboard!

Please email us at NCORP@wakehealth.edu if you have additional questions or concerns.

WF-30917CD - TELEHEALTH – A Stepped-Care Telehealth Approach to Treat Distress in Cancer Survivors

- **Last call for Telehealth participants! Enrollment will end September 17, 2021.**
- We appreciate your continued support as we try to reach our accrual goals. Every participant makes a difference!

WF-97115 - ACUPUNCTURE - A Phase III Prospective Randomized Trial of Acupuncture for Treatment of Radiation-Induced Xerostomia in Patients with Head and Neck Cancer

TRAVEL AWARDS FOR 2021 ANNUAL MEETING!

WF-1901 IMPACTS: We will be awarding travel awards to the two highest accruing sites for all IMPACTS accruals between 3/19/2021 – 9/1/2021. These awards will cover hotel accommodations for 1 person per site.

Top accruing sites so far:

- 1) Northwestern University with 7**
- 2) Illinois Cancer Care Peoria with 4**

WF 30917CD TELEHEALTH: We need your help! We are making **one final push** to successfully complete the Telehealth study and meet our goal of 90 participants by 9/17/2021. To add a little bit of competitive motivation, we are offering two **travel awards** to cover two nights hotel accommodations at the Wake Forest NCORP 2021 Annual Meeting (The Renaissance Hotel, Asheville, NC) to the two highest accruing sites for all **Telehealth accruals** between 2/11/2021 – 9/1/2021.

Top accruing sites so far:

- 1) MUSC and UPSTATE are tied with 5**
 - 2) New Mexico and Metro Minnesota are tied with 3**
-

Audit Corner

- Participant data should be entered in data entry platforms (REDCap or Telehealth websites) or submitted to the Wake Forest Research Base within 2 weeks of collection.
- Please remember to check the "Resolve Issues" section in REDCap for any open data queries for your site.
- Queries more than 6 months old may be considered Major Deficiencies at audit.
