NCORP Webinar Series Announcement

Registration is Now Open:

[click on link below]

<https://events.cancer.gov/hdrp/ncorpccdrwebinars/registration>

Our team of Research Base, Community Site, Minority/Underserved Community Site, and NCI representatives is pleased to invite you to a three-part webinar series titled "Collaborating to Develop New Practice Randomization Trials for NCORP Cancer Care Delivery Research (CCDR)."

The series will provide an opportunity to share experiences with these types of trials and strategize about how best to conduct similar trials in the future. It is

designed to be broadly applicable to NCORP members involved in CCDR, regardless of their level of engagement with practice randomized trials.

The webinar series will consist of the following three webinars, each from 4 p.m. – 5:30 p.m. ET.

November 9th, 2021: “Demystifying Practice Randomized Trials & Their Use in NCORP CCDR”

- Goal: review the scientific and clinical benefits of NCORP CCDR practice randomized trials and highlight the unique opportunities for conducting these trials in NCORP.

December 3rd, 2021: “Realities of Practice Randomized Trials in NCORP CCDR”

- Goal: share Research Base and Site experiences in conducting NCORP CCDR trials to date and identify opportunities to increase the feasibility of future trials, including broadening their appeal to Sites. The emphasis will be on post-protocol approval activities.

January 26th, 2022: “Making the Numbers Work: Design Considerations in NCORP CCDR Trials”

- Goal: discuss approaches to balance the design features and analysis plans of future NCORP CCDR practice-randomized trials and the reality of their conduct in NCORP CCDR. The emphasis will be on pre-protocol approval activities.

Each webinar will include opportunities for attendees to interact with panelists. Attendees are encouraged to attend all three webinars and are welcome

to elect to attend only those of most interest. Attendance is limited to those affiliated with an NCORP Site or Research Base to allow for open discussion.

Registration Now Open! Cancer-Related Emergency Care and Urgent Care Workshop - December 1 - 3

Register now to reserve your space: <https://events.cancer.gov/nci/emergency-medicine/registration>

This workshop, sponsored by the National Cancer Institute and the National Institute of Health's Office of Emergency Care Research, will identify evidence gaps and inform research recommendations to improve outcomes in cancer survivors experiencing or at risk for urgent and emergency cancer-related complications.

The meeting is open to the public, and there is no cost to participate. Meeting registrants will be sent instructions to access the workshop sessions.

For further information or questions about the meeting program, please visit <https://events.cancer.gov/nci/emergency-medicine> or email NCIEpiCommunications@mail.nih.gov.

If you are an individual with a disability who needs reasonable accommodations to participate in this event, please contact NCIEpiCommunications@mail.nih.gov at least five business days before the event, so that we can discuss your accommodation request.

Upcoming Site Calls

WF-1901 - IMPACTS - Internet-delivered Management of Pain Among Cancer Treatment Survivors

November 10, 2021 at 2:30pm EDT

WF-1802- Influence of Primary Treatment for Prostate Cancer on Work Experience (PCW)

November 16, 2021 at 2:00pm EDT

WF-1805CD- HN-STAR- Implementation and Effectiveness Trial of HN-STAR

November 17, 2021 at 3:00pm EDT

WF-30917CD – Telehealth – A Stepped-Care Telehealth Approach to Treat Distress in Cancer Survivors

November 22, 2021 at 4:00 PM EDT

If you would like to attend, but did not receive an invitation, please email NCORP@wakehealth.edu

Please email 7NCORP@wakehealth.edu when shipping biospecimen samples. Include the FEDEX tracking number in your email so that misplaced samples can be tracked before they spoil

Study Updates

[WF-1801 - Ramipril - A Single Arm, Pilot Study of Ramipril for Preventing Radiation-Induced Cognitive Decline in Glioblastoma Patients Receiving Brain Radiotherapy](#)

Please check your prepackaged Ramipril kits that are at your site, as some of the blood specimen tubes expire at the end of November. The expiration dates are printed on the labels on the outside of the box for easy reference. If expiring, please request replacement blood tubes by emailing 7NCORP@wakehealth.edu and NCORP@wakehealth.edu with your shipping information and the number of new tubes needed. We will send new tubes that expire 03/31/2023.

[WF-1806 - M&M - Myopenia and Mechanisms of Chemotherapy Toxicity in Older Adults with Colorectal Cancer](#)

For blood kits that you have in stock, please note "M&M Study" on the pre-printed

FedEx air bill. This will assist with the routing of the sample when it reaches the University of Alabama. New kits will have this included on the FedEx air bill.

WF-1901 - IMPACTS - Internet Delivered Management of Pain Among Cancer Treatment Survivors

A **WF-1901 IMPACTS - REDCap User Guide** was posted on the Wake NCORP website on October 15th; <https://wakencorp.phs.wakehealth.edu/>. Go to: DASHBOARD/Protocol Documents/1901-IMPACTS. This guide is designed to assist site CRAs and data managers with electronic data entry for this study.

WF-97415 - UPBEAT - Understanding and Predicting Breast Cancer Events after Treatment

Please redact all PHI – including Participant Name, Date of Birth and MRN - on MRI, CPET and ECHO reports and images before submitting to the Wake Forest NCORP Research Base Study team. Study specific identifiers (PID and acrostic) should be included. If you have any questions, please contact NCORP@wakehealth.edu.

When shipping Serum, Plasma, and DNA samples to the Biospecimen Lab, please change the Express Package Service selection from "FedEx Standard Overnight" to "**FedEx Priority Overnight**"

Several samples have been arriving late to our Biospecimen lab due to delays encountered through FedEx shipping.

As always, please do not ship samples for the WF97415-UPBEAT study on

**Friday as they will not be processed at the lab until the following Monday.
Samples that thaw to room temperature are no longer evaluable.**

**New kits received from the Biospecimen Lab will have the correct shipping
service indicated.**

Please contact NCORP@wakehealth.edu if you have any questions.

Audit Corner

We are beginning to schedule audits for 2022. If your site is due for an audit, you will be contacted with a REDCap survey to collect some information on audit procedures for your site.

How do we find out we are being audited?

- Routine audits are done approximately every 36 months, but can be done sooner if your site is a high accruing site. You will be contacted for scheduling at least 12 weeks in advance.
 - Four to six weeks prior to the audit, a list of the patient records, IRB records, consent forms and drug accountability records that are to be audited will be sent by email to your NCORP Administrator.
 - NCORP Community Sites must notify their affiliates/sub-affiliates of their selected cases with audit instructions, including the date, time, place and requirements of the audit.
 - Arrangements should be made for a representative from each site to be present or available by phone during the audit for questions
-

Accruals as of October 27, 2021

Open Studies	Name	Enrolled (Patients)	Target (Patients)	Enrolled (Non-Patients)	Target (Non-Patients)
WF-1801	RAMIPRIL	48	75		
WF-1802	PCW	150	255		
WF-1806	M&M	61	300		
WF-1901	IMPACTS	26	456	0	40
WF-30917CD	TELEHEALTH	68	90
