

Bi-Weekly Broadcast

November 11, 2021

Wake NCORP Website: <https://wakencorp.phs.wakehealth.edu/>

WF NCORP RB OFFICE CLOSURE: Our office will be closed Thursday, November 25 and Friday, November 26 in observance of the Thanksgiving holiday. We will resume regular business hours on Monday, November 29, 2021.

McKesson Holiday Hours: Clinical Research Services Closed
November 25, 2021

In observance of Thanksgiving Day, McKesson's Clinical Research Services will be closed Thursday, November 25, 2021. They will return to regular business hours on Friday, November 26, 2021.

Regular business hours are Monday through Friday, 9am to 6pm EST.

Please take this information into consideration when placing your orders prior to
Thanksgiving Day.

- Only non-refrigerated product will be shipped on **Wednesday, November 24**. Orders placed prior to 2pm EST will be delivered on **Friday, November 26**.
- If refrigerated or temperature-controlled product is required before the holiday, orders must be placed by **Tuesday, November 23** prior to 2 pm ET.

Due to the influx of shipments around the holidays, carrier delays may occur. Please
plan your orders accordingly.

If you have questions regarding the shipment schedule, please contact their Clinical
Research Services team at 800.693.4906, or via email
at clinicalresearchservices@mckesson.com.

NCORP Webinar Series Announcement

Registration is Now Open:
[click on link below]

<https://events.cancer.gov/hdrp/ncorpcdrwebinars/registration>

Our team of Research Base, Community Site, Minority/Underserved Community Site, and NCI representatives is pleased to invite you to a three-part webinar series titled “Collaborating to Develop New Practice Randomization Trials for NCORP Cancer Care Delivery Research (CCDR).”

The series will provide an opportunity to share experiences with these types of trials and strategize about how best to conduct similar trials in the future. It is designed to be broadly applicable to NCORP members involved in CCDR, regardless of their level of engagement with practice randomized trials.

The webinar series will consist of the following webinars, each from 4 – 5:30pm EST.

December 3rd, 2021: “Realities of Practice Randomized Trials in NCORP CCDR”

- Goal: share Research Base and Site experiences in conducting NCORP CCDR trials to date and identify opportunities to increase the feasibility of future trials, including broadening their appeal to Sites. The emphasis will be on post-protocol approval activities.

January 26th, 2022: “Making the Numbers Work: Design Considerations in NCORP CCDR Trials”

- Goal: discuss approaches to balance the design features and analysis plans of future NCORP CCDR practice-randomized trials and the reality of their conduct in NCORP CCDR. The emphasis will be on pre-protocol approval activities.

Each webinar will include opportunities for attendees to interact with panelists. Attendees are encouraged to attend all three webinars and are welcome to elect to attend only those of most interest. Attendance is limited to those affiliated with an NCORP Site or Research Base to allow for open discussion.

CANCER-RELATED EMERGENCY AND URGENT CARE

PREVENTION, MANAGEMENT, AND CARE COORDINATION
DECEMBER 1-3, 2021

Registration Now Open! Cancer-Related Emergency Care and Urgent Care Workshop - December 1 - 3

Register now to reserve your space: <https://events.cancer.gov/nci/emergency-medicine/registration>

This workshop, sponsored by the National Cancer Institute and the National Institute of Health's Office of Emergency Care Research, will identify evidence gaps and inform research recommendations to improve outcomes in cancer survivors experiencing or at risk for urgent and emergency cancer-related complications.

The meeting is open to the public, and there is no cost to participate. Meeting registrants will be sent instructions to access the workshop sessions.

For further information or questions about the meeting program, please visit <https://events.cancer.gov/nci/emergency-medicine> or email NCIEpiCommunications@mail.nih.gov.

If you are an individual with a disability who needs reasonable accommodations to participate in this event, please contact NCIEpiCommunications@mail.nih.gov at least five business days before the event, so that we can discuss your accommodation request.

Upcoming Site Calls

WF-1802- Influence of Primary Treatment for Prostate Cancer on Work Experience (PCW)

November 16, 2021 at 2:00pm EST

WF-1805CD- HN-STAR- Implementation and Effectiveness Trial of HN-STAR

November 17, 2021 at 3:00pm EST

WF-30917CD – Telehealth – A Stepped-Care Telehealth Approach to Treat Distress in Cancer Survivors

November 22, 2021 at 4:00pm EST

WF-1801- Ramipril- A Single Arm, Pilot Study of Ramipril for Preventing Radiation-Induced Cognitive Decline in Glioblastoma Patients Receiving Brain Radiotherapy

November 24, 2021 at 3:00pm EST

WF-1806 – M&M – Myopenia and Mechanisms of Chemotherapy Toxicity in Older Adults with Colorectal Cancer

December 8, 2021 at 2:30pm EST

WF-1804CD – AH-HA – Assessing Effectiveness and Implementation of an EHR Tool to Assess Heart Health Among Survivors (AH-HA)

December 16, 2021 at 11:30am EST

If you would like to attend, but did not receive an invitation, please email NCORP@wakehealth.edu

Please email 7NCORP@wakehealth.edu when shipping biospecimen samples. Include the FEDEX tracking number in your email so that misplaced samples can be tracked before they spoil

Study Updates

[WF-1801 - Ramipril - A Single Arm, Pilot Study of Ramipril for Preventing Radiation-Induced Cognitive Decline in Glioblastoma Patients Receiving Brain Radiotherapy](#)

Please check your prepackaged Ramipril kits that are at your site, as some of the blood specimen tubes expire at the end of November. The expiration dates are printed on the labels on the outside of the box for easy reference. If expiring, please request replacement blood tubes by emailing 7NCORP@wakehealth.edu and NCORP@wakehealth.edu with your shipping information and the number of new tubes needed. We will send new tubes that expire 03/31/2023.

[WF-1802 - Influence of Primary Treatment for Prostate Cancer on Work Experience \(PCW\)](#)

The Higher Income White stratum only has 8 remaining slots available. Please

keep this in mind when screening for participants and check the slot reservation report in CTSU-OPEN to see how many slots are available before registering.

WF-1806 - M&M - Myopenia and Mechanisms of Chemotherapy Toxicity in Older Adults with Colorectal Cancer

A patient brochure (version 10/27/21) has been CIRB approved and posted on the CTSU website (<https://www.ctsu.org/public/Default.aspx>). These can be used to help advise patients considering the M&M Study. If your site needs assistance with printed copies, please contact us at NCORP@wakehealth.edu.

WF-97415 - UPBEAT - Understanding and Predicting Breast Cancer Events after Treatment

When shipping Serum, Plasma, and DNA samples to the Biospecimen Lab, please change the Express Package Service selection from "FedEx Standard Overnight" to "[FedEx Priority Overnight](#)"

Several samples have been arriving late to our Biospecimen lab due to delays encountered through FedEx shipping.

As always, please do not ship samples for the WF97415-UPBEAT study on Friday as they will not be processed at the lab until the following Monday.

Samples that thaw to room temperature are no longer evaluable.

New kits received from the Biospecimen Lab will have the correct shipping service indicated.

Please contact NCORP@wakehealth.edu if you have any questions.

Accruals as of November 10, 2021

Open Studies	Name	Enrolled (Patients)	Target (Patients)	Enrolled (Non-Patients)	Target (Non-Patients)
