2024 Wake Forest NCORP Research Base Annual Meeting

Registration is Now Open!

October 21 – 23, 2024

At the Marriott Myrtle Beach Grand Dunes Resort & Spa at Myrtle Beach, SC

- If you plan to attend the Health Equity Luncheon, you must register as space is limited to 60.
- If you plan to attend the half day, Just Ask™ Training on Wednesday, October 23, you must register as space is limited to 60.
- Once you register, you will be sent a confirmation email. Within this email is the link to the hotel for room reservations.
- You must register for the meeting in order to receive the hotel reservation link.

This meeting will be held as In-Person only this year and the Registration link will also be posted on our website for members only.

[Click here to register](#)

Our Keynote Speaker will be **Karriem Watson, DHSc, MS, MPH** who presides over the *All of Us* Research Program at the NIH.

Nadine Barrett, PhD, MA, MPH will be leading our Just Ask™ Training on Wednesday. This is a special ASCO-ACCC resource for research sites to help improve equity, diversity, and inclusion in cancer clinical trials.

2024 WF NCORP RB Annual Meeting Travel Awards

We will be presenting travel awards to sites with the most enrollment to WF-1805CD HN-STAR, WF-1806 M&M, WF-1901 IMPACTS, WF-2201 HYPOGRYPHE, and WF-2202 SHINE **between February 1 and September 15, 2024.**

- Awards will be given to 2 sites for each study.
- Travel awards assist with travel to our 2024 Wake Forest NCORP RB Annual Meeting in Myrtle Beach, SC, October 21-23.
- **Awards are worth up to \$1,000 each** to cover travel and hotel expenses at The Grande Dunes Marriott Resort.

Wake Forest NCORP Research Base Holiday Hours

The Wake Forest Research Base NCORP offices will be closed for Independence Day on **July 4 & 5**.

Wake Forest NCORP Research Base Quarterly Call

If you missed the Wake Forest NCORP Research Base Quarterly Call on 4/24/2024, you can watch the video on our website here:

Upcoming Site Calls

If you haven't already, please add these meetings to your calendar

****Please note that your calendar may not update automatically if changes are made. Please check these emails and our website for meeting updates.****

You can also join site calls from our [Wake NCORP website](#). Click the call in the "Upcoming Events" section on the Home page or through the Calendar. You must be a registered user to join from the website.

If you are having trouble joining a call or have any other issues please email NCORP@wakehealth.edu

WF-2202 - Optimizing Psychosocial Intervention for Breast Cancer-related Sexual Morbidity: The Sexual Health and Intimacy Education (SHINE) Trial
June 12, 2:00 PM ET

WF-1806 - M&M - Myopenia and Mechanisms of Chemotherapy Toxicity in Older Adults with Colorectal Cancer
June 25, 2:30 PM ET

Study Updates

WF-1805CD - HN-STAR- Implementation and Effectiveness Trial of HN-STAR

Quarterly Surveys for Intervention Group

Please remind your participants that **quarterly surveys using the HN-STAR tool must be completed on a computer or tablet, not on their phone.** The surveys will not be complete if they attempt them on their phone. Thank you in advance for your help with this!

Sites with 10 Enrollments

We have had several sites reach the minimum goal of 10 enrollments, and more that are very close. If you haven't already, once your site has reached 10, please be sure to send all Designated Clinicians and Stakeholders at your site (even if they have not enrolled any HN-STAR patients) their final survey in REDCap so that we can complete interviews.

Please complete the "DC Intro" section and click the "Send Survey" button. You will do the same thing for your Stakeholder(s) under the "SH-Email Trigger" section.

Remember that each site can continue to enroll up to 50 patients. Thanks so much to everyone for all your efforts!

WF-1806 - M&M- Myopenia and Mechanisms of Chemotherapy Toxicity in Older Adults with Colorectal Cancer: The M&M Study

Be aware that the younger stratum for WF-1806, Age 60 – 74, will be closing soon. The last slot is currently reserved and this stratum will close once an enrollment is completed. Our older stratum, Age 75 and older still has plenty of slots.

Share your garden photos with the M&M Study community.

- *Photos will be included in our July newsletter (The M&M Minute).*
- *Email pics of your favorite flowers or veggies to ncorp@wakehealth.edu*

WF-1901 – IMPACTS - Internet-delivered Management of Pain Among Cancer Treatment Survivors

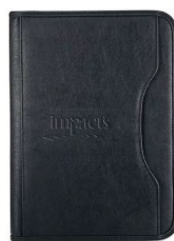

Does your site need assistance with recruitment strategies for enrollment to IMPACTS? It may be beneficial to consider refresher training. Please send us an email to NCORP@wakehealth.edu and include "WF-1901 Refresher Training" in the subject line for further details.

- Currently, there are 154 sites that have agreed to participant in the WF-1901 study, with 52 of them actively enrolling patients!
- With just one patient enrolled at each of these sites, we will surpass our goal!
- Each site that enrolls in **April-June** can choose from the following below as a “thank you” for helping to make this important trial a success!!

We are glad to organize refresher trainings for anyone excited to restart IMPACTS!

Wake Forest NCORP Research Base Website

Remember to update your profile to include any new studies you may be involved in

We use this information for targeting email communications and surveys.

<https://wakencorp.phs.wakehealth.edu/>

Registering for an account will allow you to:

- Join site calls and other meetings from the Upcoming Events or Calendar sections
- Access study training materials
- View previous study meetings
- Download important study documents including training videos, study guides, and neurocognitive CRFs

Once registered, you must update your user profile to sign up for study-specific mailing lists and meeting announcements, indicate your NCORP Community site, add your user roles, and update your GCP for database access.

If you have any questions or need assistance with registration, please email NCORP@wakehealth.edu

Accruals as of June 5, 2024

Open Studies	Name	Enrolled (Patients)	Change in Past 2 Weeks	Target (Patients)	Enrolled (Non-Patients)	Target (Non-Patients)
WF-1806	M&M	212	+4	300		
WF-1901	IMPACTS	169	+6	250	0	40
WF-1805CD	HN-STAR	269	+10	350	130	140
WF-2201	HYPOGRYPHE	6	+1	244		
WF-2202	SHINE	91	+23	320
