## Study Updates

### WF-1805CD - HN-STAR- Implementation and Effectiveness Trial of HN-STAR

#### **NEW AMENDMENT ACTIVATION**

##### **WF-1805CD Amendment 6, PVD 04/01/2024, Release Date 06/13/2024**

The WF NCORP Research Base study titled *Implementation and Effectiveness Trial of HN-STAR* has been amended. The amended protocol and related documents were released on **Thursday, June 13, 2024**.

Changes with this amendment include:

- Updated 4.2.5 and 4.2.6 Schedule of Events and Footnotes.
- Added “I am able to work (include work at home)” to the FACTHN(v4) instrument.
- Added “Have you visited your primary care provider in the last year” to the Visits with Other Providers instrument.
- Added new document “Survivor Interview Email Script.”
- Updated CTSU language based on 03/26/2024 support logistical template language document.

#### **Regulatory Requirements**

- All sites are required to use the NCI CIRB as their IRB of record per the NIH Policy on the Use of a Single Institutional Review Board for Multi-Site Research (NPT-OD-17-076).
- Site Open to Enrollment (SOTE) letter from the WF NCORP RB will be provided to the site after all onboarding activities are completed.

#### **Document Access:**

- The protocol documents were made available on the [CTSU](#) website on 06/13/2024.
- Data collection trainings and an FAQ document are available on the [WAKENCORP](#) website.

#### **Participation**

If there are any questions regarding WF-1805CD activation or participating in this study, please contact [NCORP@wakehealth.edu](mailto:NCORP@wakehealth.edu). Attn: WF-1805CD

### Quarterly Surveys for Intervention Group

Please remind your participants that **quarterly surveys using the HN-STAR tool must be completed on a computer or tablet, not on their phone.** The surveys will not be complete if they attempt them on their phone. Thank you in advance for your help with this!

### Sites with 10 Enrollments

We have had several sites reach the minimum goal of 10 enrollments, and more that are very close. If you haven't already, once your site has reached 10, please be sure to send **all** Designated Clinicians and Stakeholders at your site (even if they have not enrolled any HN-STAR patients) their final survey in REDCap so that we can complete interviews. Please check consistently for completion.

- Please complete the "DC Intro" section and click the "Send Survey" button. You will do the same thing for your Stakeholder(s) under the "SH-Email Trigger" section.

Remember that each site can continue to enroll up to 50 patients. Thanks so much to everyone for all your efforts!

## WF-1806 - M&M- Myopenia and Mechanisms of Chemotherapy Toxicity in Older Adults with Colorectal Cancer: The M&M Study

**The younger stratum for WF-1806, Age 60 – 74, is currently closed. Our older stratum, Age 75 and older, still has plenty of slots.**

## WF-1901 – IMPACTS - Internet-delivered Management of Pain Among Cancer Treatment Survivors

Does your site need assistance with recruitment strategies for enrollment to IMPACTS? It may be beneficial to consider refresher training. Please send us an email to [NCORP@wakehealth.edu](mailto:NCORP@wakehealth.edu) and include "WF-1901 Refresher Training" in the subject line for further details.

**IMPACTS needs your help!**

**Time is running out!**

**We still need 8 patients.**

**by June 30, 2024!**

- Currently, there are 154 sites that have agreed to participate in the WF-1901 study, with 52 of them actively enrolling patients!
- With just one patient enrolled at each of these sites, we will surpass our goal!
- Each site that enrolls in **April-June** can choose from the following below as a "thank you" for helping to make this important trial a success!!

We are glad to organize refresher trainings for anyone excited to restart IMPACTS!

# **WF-2202 - SHINE - Optimizing Psychosocial Intervention for Breast Cancer-related Sexual Morbidity: The Sexual Health and Intimacy Education (SHINE) Trial**

## **NEW AMENDMENT ACTIVATION**

**SHINE (WF-2202) Amendment 2, Protocol Version Date 04/30/2024 has been released.**

The WF NCORP Research Base study entitled **Optimizing Psychosocial Intervention for Breast Cancer-related Sexual Morbidity: The Sexual Health and Intimacy Education (SHINE) Trial** has been amended. The amended protocol and related documents were released on **June 12, 2024**.

### **Changes with this amendment include:**

- Removed requirement for enrollment to occur within 7 days of consent.
- Removed options to not respond in two of the PRO documents. (Requirement for an option to not respond was covered in a separate CIRB approved document and remains in the REDCap survey that is viewed by the participant)
- Removed dollar amounts in email notifications for gift cards.
- Added relationship questions to PROMIS SexFS Screener form at 12- and 24-week surveys.
- Added relationship question to Communication with Partners PRO form for 12- and 24-week surveys.
- Administrative changes to language in protocol.
- Updated CTSU language based on 1/24/2024 and 3/25/2024 support logistical template language documents.

***An updated Helpful Guide v.06.12.24 is now available along with a new FAQ document. Note: These documents can only be downloaded from the Wake NCORP RB website.***

### **WF-2202 Document Access:**

- The protocol documents are available on the [CTSU](#) website.
- The *Helpful Guide* and *FAQ* documents are available on the [WAKENCORP](#) website.
