### **Hurricane Francine: Potential Delivery Delays September 13, 2024**

#### **What is Happening?**

Based on current weather forecasts for Hurricane Francine, there is a potential for nationwide delivery delays on Friday, September 13, 2024 (shipments processed on Thursday, September 12, 2024), even in areas not directly affected by weather.

#### **What this means to you:**

Clinical Research Services (CRS) is encouraging sites to place orders as early as possible today, Wednesday, September 11, 2024, that are needed by Tuesday, September 17, 2024. Please place orders as early in the day as possible with the reflective need-by date for

patient treatment.

There is a potential for carrier delivery delays through the rest of the week due to the storm's impact.

**Who do I contact for questions?**

If you have questions regarding shipments, please contact our Clinical Research Services (CRS) team at 800.693.4906, or via email at [clinicalresearchservices@mckesson.com](mailto:clinicalresearchservices@mckesson.com).

We appreciate the opportunity to serve you and for your understanding and patience. We will continue to monitor forecasts closely and will notify you of any further updates.

Kind regards,

Clinical Research Services team

## Study Updates

---

### **(NEW!) WF-1805CD HN-STAR - Implementation and Effectiveness Trial of HN-STAR**

**We are closing in on 300 enrollments, out of our goal of 350.** Please continue to screen and enroll, as we hope to reach goal by year end!

Remember that each site's individual goal is 10 enrollments for this study. Many thanks to all who have already reached their goal. Every site can enroll **up to 50 patients** to this study, so keep up the great work! If you need help, or would like to set up an individual site call, please email [NCORP@wakehealth.edu](mailto:NCORP@wakehealth.edu).
