### \*\*\*REMINDER\*\*\*

Current Good Clinical Practice (GCP) certification is required for access to our REDCap database. GCP certification dates in RSS always default to the 1st of the expiration month. If you receive a notice from REDCap about your account expiring this is most likely due to an expiring GCP certification. You can upload new certificates to our website (<https://wakencorp.phs.wakehealth.edu/>) or you can email them to [NCORP@wakehealth.edu](mailto:NCORP@wakehealth.edu).

### NCI CIRB Office Closed for Memorial Day

The NCI CIRB Operations Office will be closed Monday, May 26, 2025, for Memorial Day.

If you need to reach us, please do so before the holiday by sending an email [CIRB Helpdesk](#) or by calling us toll-free at 1-888-657-3711.

### **Strata Closed for 1 Month**

Due to recruitment occurring at such a rapid pace, we are going to pause recruitment in some strata to ensure we maintain a balanced representation of all groups throughout the recruitment phase.

**Please continue to screen patients as you normally would.** Be aware that with this temporary pause in place, you may see an increased number of screening results come back as “Not Eligible”, depending on the potential participant’s responses to the self-screening questionnaire. We will send an updated special broadcast email once the restriction is lifted.

Please let us know if you have questions with an email to [NCORP@wakehealth.edu](mailto:NCORP@wakehealth.edu).

### **(NEW!)WF-1805CD - HN-STAR - Implementation and Effectiveness Trial of HN-STAR**

#### **All Participant Enrollment in OPEN is now closed.**

Now that enrollment has closed, DCs and SHs must complete final surveys so that our study team can set up their final interviews. For DCs, please complete the “DC Intro” form in REDCap for those who have not already completed their survey. For SHs, please complete the “SH-Email Trigger” form in REDCap for those who have not already completed their survey. These can be found under the “After 10<sup>th</sup> Completion” section. Thank you in advance for your assistance. Please reach out to [NCORP@wakehealth.edu](mailto:NCORP@wakehealth.edu) if you have any questions.

## **(NEW!)WF-2301CD - CONNECT - Multi-site Community Oncology Planning for the CONNECT Intervention Targeting Lung Cancer Caregivers**

### **A couple reminders!**

Please remember to trigger the 12-week surveys in REDCap at 12 weeks post baseline survey completion. Patients and caregivers have +14 days to complete these. All contact attempts should be documented in the Contact Attempt Log. A deviation form must be completed for any surveys completed outside this window.

Friendly reminder that caregivers can be recruited remotely and this is especially helpful when they are not attending a patient's appointment. Further, a caregiver does not need to provide hands-on medical care to be eligible. Care can come in many forms such as providing emotional support, transportation, helping the patient navigate the healthcare system, and more. If a patient is married or partnered, this role often defaults to the spouse/partner. However, caregivers often also include adult children, other family members, or a close "family-like" friend.

Please email [NCORP@wakehealth.edu](mailto:NCORP@wakehealth.edu) with any questions.

### **TRAVEL AWARD COMPETITION**

Our Research Base will be offering a travel award to one site for each of the following studies: WF-1806 (M&M) , WF-1901 (IMPACTS) and WF-2301CD (CONNECT). The travel award will be given to the sites with the most enrollment between January 1st, 2025 – July 31, 2025, one award per study. This award will help cover expenses up to \$1000 for travel to the 2025 Wake Forest NCORP Research Base Annual Meeting in Asheville, North Carolina!
