ATTENTION PLEASE!

Current Good Clinical Practice (GCP) certification is required for access to our REDCap database. GCP certification dates in RSS always default to the 1st of the expiration month. **If you receive a notice from REDCap about your account expiring this is most likely due to an expiring GCP certification.** You can upload new certificates to our website (<https://wakencorp.phs.wakehealth.edu/>) or you can email them to NCORP@wakehealth.edu.

WF-1806- M&M - Myopenia and Mechanisms of Toxicity in Older Adults with Colorectal Cancer

WF2304-A172401- COSMIC - Complementary Options for Symptom Management In Cancer (COSMIC): Assessing Benefits and Harms of Cannabis and Cannabinoid Use Among a Cohort of Cancer Patients Treated in Community Oncology Clinics

Strata Closure Extended Another Month

Due to recruitment occurring at such a rapid pace, we are going to pause recruitment in some strata to ensure we maintain a balanced representation of all groups throughout the recruitment phase.

Please note: This notification does not indicate a pause in recruitment. Please continue to screen patients as you normally would. Be aware that with this temporary pause in place, you may see an increased number of screening results come back as “Not Eligible”, depending on the potential participant’s responses to the self-screening questionnaire. We will send an updated special broadcast email once the restriction is lifted. Please let us know if you have questions with an email to NCORP@wakehealth.edu.
