Study Updates

(NEW!) 2027 NCORP Landscape Assessment

The **Request for Questions (RFQ)** for the 2027 Landscape Assessment is now available. The deadline for submitting questions is **September 15, 2026**.

The purpose of the Landscape Assessment is to collect information about community site infrastructure and research capacity among NCORP clinics. The Landscape Assessment is **open to all NCORP affiliates and subaffiliates**.

Use this link to find the full RFQ as well as resources from the 2022 Landscape:
<https://wakencorp.phs.wakehealth.edu/studies/landscape/>

Please contact ncorp@wfusm.edu with any questions!

(NEW!) WF-1901 - IMPACTS - Internet-delivered Management of Pain Among Cancer Treatment Survivors

FINAL PUSH!

We are very close to reaching our enrollment target and currently need **just one more participant** before enrollment closes on **July 31, 2026!**

We would greatly appreciate your help in reviewing your patient population to determine whether any individuals may meet the study's eligibility requirements. Reaching this final enrollment milestone would be a tremendous accomplishment, and we would love to achieve our target before enrollment closes.

If you have any potentially eligible participants, please reach out to them as soon as possible and let us know if we can assist with eligibility review or any study-related questions.

Thank you for your continued support and commitment to this important study. Your efforts have been instrumental to the success of this trial, and we're hopeful that, with your help, we can reach our goal before enrollment ends.

WF-2401 - STEPS-BC - Supportive Tailored Exercise Program for Survivors of Breast Cancer

WF-2401 STEPS-BC Recruitment Material Now Available

Aligned with STEPS-BC (WF-2401) Amendment 2, Protocol Version Date 04/13/2026, Activation Date 05/27/2026.

The following recruitment documents were posted to the CTSU website on 07/09/2026:

Recruitment Brochure – trifold brochure explaining the STEPS-BC study with a space for your site's contact information. Can be given to the participant while in clinic or mailed to the participant. QR code can be scanned to obtain more information about the study on the cancer.gov website.

Recruitment Flyer – explains the STEPS-BC study with space for your site's contact information. Can be posted in exam rooms, given to the participant while in clinic or mailed to the participant. QR code can be scanned to obtain more information about the study on the cancer.gov website.

Interested in support for healthy living?

If you are starting treatment for breast cancer soon, you may be able to join the STEPS-BC Study.

Why Is This Study Being Done?

To find out if online participation in health education classes with or without exercise can help people with breast cancer keep:

- Heart function
- Physical function and
- Quality of life during treatment.

Contact us to find out if you are eligible.

To learn more at cancer.gov, scan QR code with a smartphone camera

This study is a NCI-funded research study (NCT01411111) supported by public funding from the National Cancer Institute (NCI), part of the National Institutes of Health (NIH).

NIH (NIH) v.05.18.2016

Patient Portal Message – letter explaining the STEPS-BC study with space for your site's contact information. Can be sent to patients via patient portal/MyChart

Research Recruitment Message for MyChart or other EMR Patient Portal

Subject Line of Message: Research Opportunity: Interested in support for healthy living during treatment?

From Line of Message (Who will the message be sent by?): [INSERT NAME OF LOCAL INSTITUTION]

Message Body:

Cancer can affect your **quality of life, health and physical ability**. Researchers from across the country, including your cancer care teams, are recruiting for an important study called **STEPS-BC**. This study aims to find out if online **health education classes, with or without exercise**, can help people with breast cancer keep heart function, physical function and/or quality of life during treatment.

If you are interested in taking part in the STEPS-BC study, please read on to see if you qualify!

Who can Participate?

You may be eligible if you:

- were recently diagnosed with breast cancer in Stage I, II, or III.
- aged 18-65 years.
- able to ride a stationary bike.
- able to walk at least two blocks without issue.
- able to hold your breath for 10 seconds.
- able to read and understand English.
- have or willing to get a working email address.

You must be planning to start your chemotherapy treatment.

What's Involved?

- Be in the study for about **24 weeks**.
- Participate in **group-based online health education classes** with or without personalized exercise training.
- Complete **questionnaires** (3 times)
- Complete **physical tests** (3 times)
- Have **blood collected** (3 times)
- Have an **MRI of your heart** (3 times)
- Have an **exercise test of your lungs** (2 times)

Compensation:

You can receive **\$50 for each set of completed activities, up to a total of \$150**.

If you are interested in participating, please contact [INSERT CONTACT INFORMATION HERE].

Thank you for your time.

Study Summary – A summary of the STEPS-BC study with a space for your site's contact information. Designed to be used as a pdf available for download.

Study Summary (WF-2401)

The STEPS-BC study wants to find out if online participation in health education classes, with or without exercise, can help people with breast cancer keep heart function, physical function and/or quality of life during treatment.

Why should I participate?

- As a side effect of treatment, many patients with breast cancer experience decreased heart health which can lead to shortness of breath, increased tiredness and inability to exercise or work.
- The STEPS-BC Study will test the addition of exercise during chemotherapy treatment to see if patients with breast cancer have a better quality of life at the end of their therapy.
- The STEPS-BC Study will provide online health education classes with or without exercise in personal and group formats to assist you.

You will be compensated for your time when you participate in the STEPS-BC Study: \$50 at three separate times, for a total of \$150.

What's Involved?

You will be in the study for 24 weeks and participate in group-based online health education classes with or without personalized exercise training.

At up to three times during the study, you will also complete:

- Questionnaires
- Physical Function Tests
- Blood draws
- MRI of your heart
- Exercise test of the lungs

Taking part in this study is your choice and you may change your mind at any time.

WF-2401 Patient Study Summary v.06.18.2026 Page 1 of 2

Study Summary (WF-2401)

Who will take part in this study?

Adults aged 18 – 85 years who are:

- Planning to start treatment for breast cancer - Stage I, II, or III.
- Able to ride a stationary bike.
- Able to walk at least two blocks without issue.
- Able to hold your breath for 10 seconds.
- Able to read and understand English
- Have or willing to get a working email address.

What is the cost of taking part in this study?

All costs related directly to the study will be paid for by the study. The costs of your regular medical care are unrelated and fall under your existing coverage. The study does not cover your personal internet / cellular data usage charges.

How can I learn more?

- Visit the cancer.gov [STEPS-BC Study](#) website or scan the QR Code to the right with your smartphone camera.
- Call the NCI Cancer Information Service at 1-800-4-CANCER (1-800-422-6237)
- For general cancer information, visit the NCI website at www.cancer.gov

WF-2401 Patient Study Summary v.06.18.2026 Page 2 of 2

WF-2401 Resources:

- The protocol documents are available on the [CTSU](#) website.
- The *Helpful Guide* and other resources are available on the [WAKENCORP](#) website.
- WAKE: WF-2401 STEPS-BC Introductory Webinar** is available on CTSU CLASS.
- WAKE: WF-2401 STEPS-BC Physical Assessment Training** is available on CTSU CLASS.

Only sites rostered with the Wake Forest NCORP Research Base are invited to participate.

If there are any questions regarding the WF-2401 activation, or if your site(s) are interested in participating, please contact NCORP@wfusm.edu; Attn: WF-2401.

Connect with us on Social Media!

Follow us on **LinkedIn** and **X** to stay informed on exciting new updates from the Wake Forest NCORP Research Base!

Wake Forest NCORP Research Base Website

Reminder: Additional resources, **which are not CIRB approved**, are maintained on our Wake Forest NCORP RB website and **are not available on CTSU**. Note, these resources include a ***Helpful Guide*** for each study, which provides guidelines for the study team, as well as other study instructions.

<https://wakencorp.phs.wakehealth.edu/>

Registering for an account will allow you to:

- Join site calls and other meetings from the Upcoming Events or Calendar sections
- Access study training materials
- View previous study meetings
- Download important study documents including training videos, study guides, and neurocognitive CRFs

Once registered, you must update your user profile to sign up for study-specific mailing lists and meeting announcements, indicate your NCORP Community site, add your user roles, and update your GCP for database access.

If you have any questions or need assistance with registration, please email NCORP@wfusm.edu.
